

The Red Flash

Dear Valued Customer,

„Innovation, precision and service“ - these are always the most important objectives for Hermann. In this issue of the Red Flash we would like to convince you once more of these principles with our latest news:

We are expanding our production facilities

Innovation and new, creative ideas need room. Therefore we are expanding for you - our customers. Our production facilities are currently being enlarged again. On the 13th of March the first sod has been turned for the extension of the new production hall, so that we can increase capacity and broaden our product range.

New Hermann Image Video

Last year we started producing our new Image Video. This video gives our customers the possibility to learn more about our company and allows a "glimpse behind the scenes".

How does Hermann work? Who and what ist the company standing for? Where are our strengths and what is our main focus? What is the product range and which visions do we follow?

These and many more questions will be answered in this video.

We are pleased to present you this new, successful Image Video. It is available immediately.

The Red Flash

"Natural. Innovative" - the Image Video.

The story of bizarre landscapes, farmers, castles and knights, industrialisation and the high tech at the edge of feasibility...

Have we aroused your curiosity? Please request our new Image Video by using the attached sheet.

The Red Flash

New Product Range:

Plastic Surgery - Precision For Beauty

The product range of plastic surgery becomes more and more important.

In our new catalogue "Precision For Beauty" you will find everything which is necessary for this field of operation.

You will find all kinds of instruments in our new catalogue including products for maxillofacial surgery, instruments for breast enlargement and liposuction. The new programme is multifunctional and applicable in many ways.

Please ask for our new catalogue with the attached sheet.
